Georgetown College.

FOUNDED AS A COLLEGE, 1789.

CHARTERED AS A UNIVERSITY

BY ACT OF CONGRESS, MARCH 1ST, 1815.

EMPOWERED BY THE HOLY SEE

TO GRANT DEGREES IN PHILOSOPHY AND THEOLOGY,

MARCH 30TH, 1833.

Board of Directors.

REV. JAMES A. DOONAN, S. J., *President and Treasurer.*

REV. M. A. O'KANE, S. J., *Vice-President.*

REV. EDWARD I. DEVITT, S. J., *Secretary.*

REV. EDWARD CONNOLLY, S. J.

REV. THOMAS H. STACK, S. J.

Directory.

The Post Office address of the officers and students in the Classical and Scientific Departments, is *Georgetown College, West Washington, D. C.*

The College of Medicine is situated *cor. Tenth and E sts., N. W., Washington, D. C.*

The office of the Dean of the Medical Faculty, J. W. H. Lovejoy, M. D., 900 *Twelfth st., N. W., Washington, D. C.*

The Georgetown University Law Building is situated *cor. Sixth and F sts., N. W., Washington, D. C.*

Office of the Secretary, in the Law Building. *Address as above.*

The Academic and Scientific Schools will re-open on *Thursday, September 10th, 1885.*

The School of Philosophy, *September 17th, 1885.*

The School of Medicine, opens on *Monday, September 21st, 1885.*

The School of Law, opens on the *First Wednesday in October, 1885.*

MEMBERS OF THE FACULTIES.

Academic and Scientific Schools

FACULTY AND OFFICERS, 1884-85.

REV. JAMES A. DOONAN, S. J.,
President and Treasurer.

REV. M. A. O'KANE, S. J.,
Vice-President and Prefect of Schools.

REV. EDWARD I. DEVITT, S. J.,
Prefect of Studies.

REV. HIPPOLYTE L. GACHE, S. J.,
Chaplain.

REV. WM. REYNOLDS COWARDIN, S. J.,
First Prefect of Discipline.

MR. WILLIAM CLARK, S. J.,
Librarian.

REV. TIMOTHY O'LEARY, S. J.,
Professor of Rational Philosophy.

REV. JAMES CURLEY, S. J.,
Director of the Observatory.

REV. JAMES CLARK, S. J.,
Emeritus Professor of Mathematics.

REV. THOMAS H. STACK, S. J.,
Professor of Physics, Mechanics and Geology.

REV. JOHN W. FOX, S. J.,
Professor of Chemistry.

REV. EDWARD I. DEVITT, S. J.,
Professor of Rhetoric.

REV. EDWARD CONNOLLY, S. J.,
Professor of Poetry.

MR. WILLIAM CLARK, S. J.,
Teacher of the First Grammar Class.

MR. THOMAS E. MURPHY, S. J.,
Teacher of the Second Grammar Class.

MR. JOHN B. LAMB, S. J.,
Teacher of the Third Grammar Class.

MR. THOMAS S. HARLIN, S. J.,
MR. THOMAS McLOUGHLIN, S. J.,
MR. PETER O'CARROLL, S. J.,
MR. PATRICK J. MCGINNEY, S. J.,
MR. JOSEPH A. GORMAN, S. J.,
MR. THOMAS J. WALSH, S. J.,
Assistant Teachers.

REV. FRANCIS TEWES,
Teacher of German.

MR. JOHN B. LAMB, S. J.,
Teacher of French.

MR. THOMAS S. HARLIN, S. J.,
Assistant Prefect of Discipline.

MR. THOMAS P. KERNAN, S. J.,
Assistant Librarian.

CHARLES S. HEIN,
Teacher of Drawing.

JOHN P. LAWRENCE,
HENRY DONCH,
Teachers of Music.

G. L. MAGRUDER, M. D.,
Attending Physician.

School of Medicine.

FLODOARDO HOWARD, M. D.,

Emeritus Professor of Obstetrics and of Diseases of Women and Infants.

JAMES E. MORGAN, M. D.,

Emeritus Professor of Materia Medica, Therapeutics and Medical Jurisprudence.

THOMAS ANTISELL, M. D.,

Emeritus Professor of Chemistry and Toxicology.

SAMUEL C. BUSEY, M. D.,

Emeritus Professor of the Theory and Practice of Medicine, and Professor of Clinical Medicine.

JOSEPH TABER JOHNSON, M. D.,

Professor of Obstetrics and of Gynaecology, and President of the Faculty.

C. H. A. KLEINSCHMIDT, M. D.,

Professor of Physiology.

J. W. H. LOVEJOY, M. D.,

Professor of the Theory and Practice of Medicine, and Dean and Treasurer of the Faculty.

M. G. ELLZEY, M. D.,

Professor of Chemistry and of State Medicine.

FRANK BAKER, M. D.,

Professor of Anatomy.

G. L. MAGRUDER, M. D.,

Professor of Materia Medica and Therapeutics.

JOHN B. HAMILTON, M. D.,

Professor of Surgery.

SWAN M. BURNETT, M. D.,

Clinical Professor of Ophthalmology and Otology.

ETHELBERT C. MORGAN, M. D.,

Clinical Professor of Laryngology.

E. M. SCHAEFFER, M. D.,

Lecturer on the Microscope and Microscopical Anatomy.

JOHN W. BAYNE, M. D.,

Professor of Clinical Surgery.

J. F. HARTIGAN, M. D.,

Lecturer on Diseases of Children.

LACHLAN TYLER, M. D.,

Demonstrator of Anatomy and Curator of the Museum.

School of Law.

CHARLES W. HOFFMAN, LL. D.,

Dean of the Faculty, and President of the Moot Court.

HON. RICHARD T. MERRICK, LL. D.,

Lecturer on Constitutional Law and the Law of Nations.

HON. WILLIAM A. RICHARDSON, LL. D.,

Lecturer on Statutory and Administrative Law, and Legal Maxims.

MARTIN F. MORRIS, LL. D.,

Lecturer on Equity Jurisprudence, Pleading and Practice, and the Law of Partnership, Corporations and Admiralty.

JAMES G. PAYNE, Esq.,

Lecturer on the Law of Real Estate, the Law of Evidence, and Criminal Law.

JOSEPH J. DARLINGTON, Esq.,

Lecturer on the Law of Personal Property, Contracts and Negotiable Paper, Testamentary Law and the Domestic Relations.

JOHN W. ROSS, Esq.,

Lecturer on Common Law Pleading and Practice, and the Laws of Torts, and Judge of the Moot Court.

SAMUEL M. YEATMAN, Esq.,

Secretary and Treasurer.

CLASSICAL DEPARTMENT.

ADMISSION.

Students may be entered at any time during the session.

Applicants for admission must know how to read and write, and must bear a good moral character. If they have been students at any other institution, they must present a certificate of general good conduct from the authorities of such institution or from other reliable persons.

Each student, on entering, is examined by the Prefect of Studies and assigned to the class for which his prior attainments have fitted him.

COURSE OF STUDIES.

The entire course of studies, including the Preparatory Classes, is completed in seven years, unless the proficiency of the student authorizes a shortening of that term. Exemptions from the regular course of studies will not be granted.

Special instruction is given to foreign students, and to those who, being well versed in the ordinary English branches, desire to advance more rapidly in the regular classical course.

DEGREES.

The degree of Bachelor of Arts is conferred upon students who have made the regular course in English, Latin, Greek, French, or some other modern language, and Mathematics, and who have passed satisfactory examinations in Rational Philosophy, Physics, Mechanics and Chemistry.

The degree of Master of Arts, in course, is conferred upon Bachelors of Arts who have passed satisfactory examinations in the post-graduate course of Ethics and Natural Philosophy.

The candidate for the degree of Bachelor or Master of Arts, is required to compose an essay on some Literary, Scientific or Moral subject, which, if accepted by the Faculty, must be left in the archives of the College.

The degree of Bachelor of Science is conferred upon those who have completed the Scientific Course, and have passed satisfactory examinations in the studies pursued in that department.

Honorary degrees are conferred, at the discretion of the Faculty, upon those who unite proficiency in the Classics with eminence in Literature or Science.

SESSIONS AND HOLIDAYS.

The Academic year is divided into two terms :

The first term begins on the second Thursday in September, and ends on the last day of January. The second term begins on the third of February, and ends with the Annual Distribution of prizes in the last week of June.

The Christmas recess begins on the 23d of December, and ends on the 2d of January. The Easter recess extends from Wednesday in Holy Week until the Wednesday after Easter, exclusive.

Students who overstay the time specified will be deprived of the privilege of returning home at the next recess.

No schools are taught on Tuesday and Thursday afternoons, nor on days of general religious or national observance.

EXAMINATIONS.

A general Examination in all the classes is held towards the close of each term.

Promotions ordinarily take place at the beginning of the first term. They will be made, however, during the year, when warranted by the progress of the student.

TERMS.

Tuition, Board, Lodging, Washing and Mending of Linen for the	
Scholastic Year.....	\$300 00
Medical Aid and Medicines.....	10 00
\$155.00 invariably in advance.	
Half Boarders.....	100 00
Day Scholars.....	50 00

SPECIAL CHARGES.

Use of Chemicals.....	10 00
Use of Philosophical and Astronomical Instruments.....	10 00
Graduation Fee.....	10 00

EXTRA CHARGES.

Use of Piano per annum.....	12 00
Spanish, German, and Italian per annum.....	40 00
Music, Drawing, Dancing, and Fencing, at the Professor's charges.	
Mending of clothes and shoes, at moderate rates.	
Room and Attendance per annum.....	80 00

Students in the higher schools and special classes are privileged to occupy private rooms in the new College. Rental for these, including fuel, light and servants' attendance, will be forty dollars a session, or eighty dollars per annum.

All accounts must be paid half-yearly in advance. If a student is withdrawn before the end of a session, no deduction will be made, except in cases of sickness or of dismissal.

Articles of clothing will not be furnished by the College, unless a deposit, for that purpose, be left with the Treasurer, who will give a detailed account of its outlay in his regular semi-annual statement.

Books and stationery, if not supplied by the parents or guardians themselves, will be furnished by the College, at moderate prices. No bill for clothing or other articles will

be acknowledged, unless the purchase has been authorized by the Treasurer of the College.

Whatever sums parents or guardians may allow their sons or wards for pocket money, must be deposited with the Treasurer, who will disburse the same according to instructions received or as circumstances may require. No advance will be made beyond the deposit.

Every student from beyond the United States must have a guardian in the vicinity who shall be responsible for his bills and receive him in case of dismissal.

No student will be allowed to remain at the College during the summer vacation; suitable board, in town or country, at the option and at the expense of parents or guardians, will be procured by the Treasurer for students who do not return home.

COURSE OF STUDIES.

PREPARATORY CLASSES.

RUDIMENTS.

SECOND CLASS.

LATIN.—Harkness's Introductory Latin Book.

ENGLISH.—English Grammar ; Mitchell's Geography and Atlas ; Fifth Metropolitan Reader ; Sargent's Speller ; Kerney's First Class Book of History ; Bible History ; Catechism ; Written Exercises ; Declamation.

ARITHMETIC.—Davies' School Arithmetic ; Penmanship.

FIRST CLASS.

LATIN.—Yenni's Latin Grammar and Harkness's New Latin Reader ; Themes.

GREEK.—Yenni's Greek Grammar ; Themes.

ENGLISH.—English Grammar ; Fifth Metropolitan Reader ; Sargent's Speller ; Mitchell's Geography and Atlas ; Kerney's First Class Book of History, Completed ; Bible History, completed ; Catechism, completed ; Written exercises ; Declamation.

ARITHMETIC.—Davies' School Arithmetic ; Penmanship.

JUNIOR CLASSES.

THIRD GRAMMAR.

LATIN.—Nepos ; Phædrus ; Yenni's Latin Grammar ; Latin Composition.

GREEK.—Yenni's Greek Grammar ; Goodwin's Greek Reader ; Themes.

ENGLISH.—English Grammar ; Mitchell's Geography and Atlas, completed ; Fredet's Ancient History ; Sargent's Standard Speaker ; De Harbe's Full Catechism ; Declamation ; Compositions.

ARITHMETIC.—Davies' School Arithmetic ; Payson's Book-Keeping.

FRENCH.—Fasquelle's Grammar ; De Fivas' Reader.

GERMAN.—Otto's Grammar and Reader.

SECOND GRAMMAR.

LATIN.—Cæsar's Commentaries ; Ovid's Metamorphoses ; Yenni's Grammar ; Latin Composition ; Casserly's Prosody.

GREEK.—Goodwin's Greek Reader ; Yenni's Greek Grammar ; Themes.

ENGLISH.—English Grammar ; Fredet's Modern History ; Fiske's Classical Antiquities, (Ancient Geography and Mythology) ; Sargent's Standard Speaker ; De Harbe's Full Catechism ; Declamation ; Compositions.

ALGEBRA.—Loomis' Algebra.

FRENCH.—Fasquelle's Grammar ; De Fivas' Reader.

GERMAN.—Otto's Grammar and Reader.

SENIOR CLASSES.

FIRST GRAMMAR.

FRESHMAN CLASS.

LATIN.—Sallust; Virgil's *Æneid*; Yenni's Latin Grammar; Latin Composition; Casserly's Prosody; Exercises in Metrical Composition.

GREEK.—Goodwin's Greek Reader; Homer's *Iliad*; Yenni's Greek Grammar, completed; Themes.

ENGLISH.—Burke's Lingard's History of England; Fiske's Antiquities (Grecian); Laws of Versification; De Harbe's Full Catechism, completed; Declamation; Compositions in Prose and Verse.

MATHEMATICS.—Loomis' Geometry, (Plane and Solid Geometry); Loomis' Algebra, completed.

FRENCH.—Fasquelle's Grammar; De Fivás' Reader.

GERMAN.—Otto's Grammar and Reader.

POETRY.

SOPHOMORE CLASS.

LATIN.—1st Term.—Virgil's *Æneid*; Livy; Horace's *Ars Poetica*; Casserly's Prosody; Du Cygne's Rhetoric.

2d Term.—Cicero's Orations; Horace's Odes and Epodes; Du Cygne's Rhetoric; Compositions in Prose and Verse.

GREEK.—*Both Terms*.—Iliad; The Olynthiacs of Demosthenes; Yenni's Greek Grammar; Themes.

ENGLISH.—Shaw's Outlines of English Literature; Jamieson's English Rhetoric; Hales' Longer English Poems; Stephens' History of the United States; Fiske's Antiquities, (Roman); Shaksperian Reader; Declamation; Compositions in Prose and Verse; Doctrinal Exposition of Religion, (Weninger's Manual); Church History.

MATHEMATICS.—Loomis' Trigonometry and Surveying; Analytical Geometry.

SCIENCE.—Chemistry, Elliot and Storer's Manual.

MODERN LANGUAGES.—Elective.

R H E T O R I C .

JUNIOR CLASS.

LATIN.—*1st Term*.—Cicero's Orations; Quintilian; Horace's Satires and Epistles; Du Cygne's Rhetoric.

2d Term.—Cicero's Orations; Tacitus's Agricola and Germania; Juvenal; Du Cygne's Rhetoric; Compositions in Prose and Verse.

GREEK.—Demosthenes on the Crown; the Œdipus Tyrannus of Sophocles; Themes.

ENGLISH.—English Rhetoric, completed; Shaw's Outlines of English Literature, completed; Hales' Longer English Poems; History of the Constitution of the United States; Shaksperian Reader; Declamation; Compositions in Prose and Verse; Doctrinal Exposition of Religion, completed; Church History, completed.

MATHEMATICS.—Loomis' Differential and Integral Calculus ; for more advanced students, E. S. Dana's Mechanics.

SCIENCE.—Hill's Lecture Notes on Qualitative Analysis ; Laboratory Practice.

MODERN LANGUAGES.—Elective.

PHILOSOPHY.

SENIOR CLASS.

RATIONAL PHILOSOPHY.—Liberatore's Logic and Metaphysics ; Tongiorgi's Ethics, and Natural Right ; Jouin.

Public and Private Disputations ; Essays.

NATURAL SCIENCES.—Ganot's Physics ; Laboratory Practice ; Lockyer's Astronomy ; E. S. Dana's Mechanics ; Dana's Geology.

Public Lectures by the Students ; Essays ; Declamation.

POST-GRADUATE COURSE.

Natural Right, continued, including the fundamental principles of Civil, Political and International Law ; The Critical History of Philosophy ; Special Branches of Science.

THE SCIENTIFIC COURSE

Is adapted to those who, after being well grounded in the elementary studies of Geography, History, Grammar and Composition, wish to devote themselves to English Literature, Mathematics, Sciences, and the Modern Languages.

The course is completed in three years. During the first year the students frequent the class of Poetry with the classical students, and follow the lectures in English Literature, Mathematics, and the Sciences proper to that class. The study of General Chemistry is pursued. Tri-weekly lectures in this branch are delivered, and the students are exercised by recitations and practical work.

TEXT-BOOKS.

ENGLISH.—The History of English Literature ; Jamieson's English Rhetoric ; Hales' Longer English Poems ; Stephens' History of the United States ; Fiske's Antiquities, (Roman) ; Shaksperian Reader ; Declamation ; Compositions in Prose and Verse ; Doctrinal Exposition of Religion, (Weninger's Manual) ; Church History.

MATHEMATICS.—Loomis' Trigonometry and Surveying ; Analytical Geometry.

SCIENCE.—Chemistry ; Eliot and Storer's Manual.

MODERN LANGUAGES.—Elective.

In the second year, they attend the lectures of the class of Rhetoric. General Chemistry is succeeded by the study of Qualitative Analysis. Lectures are given on the properties of bases and acids, and the methods of separating and detect-

ing them. Each student is provided with a desk in the laboratory, and with the apparatus necessary for a practical repetition of the lectures. After being exercised in the principles of detecting and separating substances of unknown composition, embracing both simple salts and mixtures, silicates and alloys are given for determination.

TEXT-BOOKS.

ENGLISH.—English Rhetoric, completed ; Manual of English Literature, completed ; Hales' Longer English Poems ; Constitutional History of the United States ; Shaksperian Reader ; Declamation ; Compositions in Prose and Verse ; Doctrinal Exposition of Religion, completed ; Church History, completed.

MATHEMATICS.—Loomis' Differential and Integral Calculus ; For more advanced students, E. S. Dana's Mechanics.

SCIENCE.—Hill's Lecture Notes on Qualitative Analysis ; Laboratory Practice.

MODERN LANGUAGES.—Elective.

In the third year, special attention is paid to the Natural Sciences, Physics, Astronomy, Mechanics and Geology. Four lectures and two recitations are held weekly in Physics throughout the year. Special facilities are allowed the scientific students for practical work in the physical laboratory, and they are encouraged to pursue original investigations.

TEXT-BOOKS.

NATURAL SCIENCES.—Ganot's Physics ; Lockyer's Astronomy ; E. S. Dana's Mechanics ; Dana's Geology. Public Lectures by the Students ; Essays ; Declamation.

At the completion of the third year, the degree of Bachelor of Science is conferred upon those who have passed satisfactory examinations in the branches proper to the course.

SPECIAL NOTICE.

Hereafter no provision will be made for a preparatory course exclusively English; and students who are not to follow the classical schools, must come prepared to enter at once the scientific department.

GENERAL REMARKS.

REGULATIONS FOR BOARDERS.

The students are forbidden to leave the College grounds without permission.

Those who are allowed by the President to visit the city, must return before six o'clock, P. M.

Students whose parents or legal guardians reside in the District, will be permitted to visit them on the last Saturday of each month and to remain with them until Sunday evening.

The College Authorities reserve to themselves the discretionary power of opening all letters to students, not known to be from parents or guardians.

The introduction of immoral books or papers will render the offender liable to expulsion.

The students are required to abide by the College regulations with regard to the use of tobacco.

No distinction is made in the reception of Students on the ground of religious belief, but all the boarders are required to be present at the public exercises of religion.

REGULATIONS FOR DAY SCHOLARS.

They will be admitted into the College yard at $8\frac{1}{2}$ o'clock, A. M., and $2\frac{3}{4}$ o'clock, P. M.

The classes begin at $8\frac{3}{4}$ A. M., and continue until 12. They are resumed at 3, and continue till 5 P. M.

Punctual attendance at these hours is required, and no one, after absenting himself, or coming late, will be received in class without a note from a parent or guardian, countersigned by the Prefect of Studies.

The day scholars who do not return home at noon will be required to prepare their lessons in the study-hall, at the regular hours.

They are forbidden to take out letters or perform errands for boarders without the consent of the President of the College.

JUNIOR DIVISION.

The younger students are under the supervision of officers especially assigned to them, and have dormitories, playgrounds, study-halls, &c., apart.

CATHOLIC STUDENTS.

Catholics are instructed in their religion by means of the Catechism, which forms one of the regular recitations, and by weekly catechetical lectures, which are attended by all. Further instruction is also given to such as have need of it, or are preparing for the Sacraments. For the encouragement of piety there are two Sodalties which meet weekly, and possess each a library of appropriate works.

AWARDS AND REPORTS.

The prizes, at the Annual Distribution in June, are awarded to those who, by their class exercises during the year and the excellence of their examinations, attain the required number of marks. As marks are not made up to absentees, parents who permit their sons to remain at home beyond the period allotted for vacation or recess, cannot expect to see them hold distinguished places in their classes.

Besides the Annual Distribution of Awards, the Faculty and students are assembled at the beginning of each month, when the "marks" and the standing of the students in their respective classes for the preceding month are publicly proclaimed, and testimonials awarded to those who have attained the prescribed degree of excellence.

A quarterly report of the standing in class, the progress and general conduct of each student is sent to his parents or guardians.

LECTURES, &C.

The students of the more advanced classes, accompanied by one of their Professors, are sometimes permitted to attend the lectures of the Smithsonian Institute, special lectures in the Law Department, the debates in Congress, or the pleadings before the Supreme Court, when interesting and instructive subjects are under discussion.

LITERARY SOCIETIES.

These associations are intended to promote a taste for general or special literary studies, and to afford practice in debate and declamation. Their annual celebrations are public, and are held on days fixed by the by-laws. The Societies have a joint Library of select works.

The Students' Reading-Room is supplied with daily, weekly and monthly journals.

ATHLETIC EXERCISES.

Organizations for the practice of athletic sports are encouraged. Ample facilities for physical exercise and for bathing are provided.

LIBRARY, MUSEUM, &C.

The College LIBRARY contains thirty thousand volumes, amongst which are many rare and curious works. There are one hundred volumes printed between the years 1472 and 1520; three manuscripts anterior to the year 1400, and others of later dates.

The PHILOSOPHICAL CABINET and the Chemical Laboratory contain the instruments necessary for the prosecution of studies in Natural Philosophy and Chemistry.

The collections in the MUSEUM embrace an extensive cabinet of minerals, geological specimens and shells, besides a valuable set of coins, medals and miscellaneous objects.

At the distance of about 400 yards from the College is an ASTRONOMICAL OBSERVATORY, sixty feet long and thirty feet wide, divided from east to west into three rooms. The eastern room contains a first-class meridian circle, by Troughton & Simms, of London. The divided arc of the circle has a diameter of 45 inches, reading by microscopes to fractions of a second of an arc. The telescope is a four-inch glass. A fine sidereal clock, by Molyneux, of London, accompanies this instrument. In the western room is mounted a fine transit instrument, by Ertel & Son, of Munich. It is seven feet long, and has a four and one-half inch object glass. There is in the same room a sidereal clock. The middle part of the Observatory is three stories high, and has a rotary dome. The dome-room contains a well-mounted equatorial telescope, made by Troughton & Simms. This instrument has a 4 8-10 inch object glass, giving powers from twenty-five to four hundred. There are, moreover, five portable astronomical instruments, and a library of five hundred works on Astronomy, Mathematics and the Physical Sciences.

ACADEMIC

Faculty and Officers.

1884-85.

REV. JAMES A. DOONAN, S. J.,
President and Treasurer.

REV. MICHAEL A. O'KANE, S. J.,
Vice-President and Prefect of Schools.

REV. EDWARD I. DEVITT, S. J.,
Prefect of Studies.

REV. HIPPOLYTE L. GACHE, S. J.,
Chaplain.

REV. WILLIAM R. COWARDIN, S. J.,
First Prefect of Discipline.

MR. WILLIAM CLARK, S. J.,
Librarian.

REV. TIMOTHY O'LEARY, S. J.,
Professor of Rational Philosophy.

REV. JAMES CURLEY, S. J.,
Director of the Observatory.

REV. JAMES CLARK, S. J.,
Emeritus Professor of Mathematics.

REV. THOMAS H. STACK, S. J.,
Professor of Physics, Mechanics, and Geology.

REV. JOHN W. FOX, S. J.,
Professor of Chemistry.

GEORGETOWN COLLEGE.

REV. EDWARD I. DEVITT, S. J.,
Professor of Rhetoric.

REV. EDWARD CONNOLLY, S. J.,
Professor of Poetry.

MR. WILLIAM CLARK, S. J.,
Teacher of First Grammar.

MR. THOMAS E. MURPHY, S. J.,
Teacher of Second Grammar.

MR. JOHN B. LAMB, S. J.,
Teacher of Third Grammar.

MR. THOMAS S. HARLIN, S. J.,
MR. THOMAS McLOUGHLIN, S. J.,
MR. PETER O'CARROLL, S. J.,
MR. PATRICK J. MCGINNEY, S. J.,
MR. JOSEPH A. GORMAN, S. J.,
MR. THOMAS J. WALSH, S. J.,
Assistant Teachers.

REV. FRANCIS TEWES,
Teacher of German.

MR. JOHN B. LAMB, S. J.,
Teacher of French.

MR. THOMAS S. HARLIN, S. J.,
Assistant Prefect of Discipline.

MR. THOMAS P. KERNAN, S. J.,
Assistant Librarian.

CHARLES S. HEIN,
Teacher of Drawing.

JOHN P. LAWRENCE,
HENRY DONCH,
Teachers of Music.

G. L. MAGRUDER, M. D.,
Attending Physician.

SODALITY OF THE IMMACULATE CONCEPTION OF THE BLESSED VIRGIN MARY.

ORGANIZED JANUARY, 1815.

This Confraternity is composed of the Catholic students of the Senior Division. Its object is the cultivation of a religious spirit among its members and the practice of devotion towards the Blessed Virgin Mary. It has a library of 700 volumes.

OFFICERS.

REV. MICHAEL A. O'KANE, S. J., *Director.*

JOHN R. SLATTERY, *Prefect.*

JOSEPH M. DOHAN, *First Assistant.*

JOHN B. McFAUL, *Second Assistant.*

WILLIAM V. McGRATH, *Secretary.*

FRANCIS J. LAWLER, *Treasurer.*

CLARENCE J. NEALE, *Censor.*

JOSEPH MALLAN, *Librarian.*

CHARLES F. BYRNE, } *Sacristans.*

JOHN W. HEALY, }

CONSULTORS.

Joseph Lawler, Joseph Spellissy,
Eugene E. McDonald, Thomas V. Bolan,
Daniel J. Geary.

58 Members.

JUNIOR SODALITY.

ORGANIZED FEBRUARY 12TH, 1857.

OFFICERS.

MR. WILLIAM F. CLARK, S. J., *Director.*

ARTHUR SEEP, *Prefect.*

DANIEL O'DAY, *First Assistant.*

JOHN DUROSS O'BRYAN, *Second Assistant.*

WILLIAM O'BYRNE, *Secretary.*

HARRY NICHOLS, } *Sacristans.*

ROBERT CHRIST, }

28 Members.

THE PHILODEMIC SOCIETY.

ORGANIZED SEPTEMBER 25TH, 1830.

The Philodemic is essentially a Debating Society, having for its object the cultivation of eloquence and the promotion of knowledge. It is composed of members of the more advanced classes. Its meetings are of two kinds, viz: the Ordinary, held at such times as may be prescribed by the by-laws, and the Grand Triennial, usually held the day before the Commencement of Georgetown College. The officers are elected annually. In conjunction with the Philonomosian Society, it possesses a fine reading-room and a large and valuable library.

OFFICERS.

REV. EDWARD I. DEVITT, S. J., *President*.
 AGUSTIN DE YTURBIDE, *Vice-President*.
 JOSEPH M. DOHAN, *Recording Secretary*.
 HENRY J. LATSHAW, *Treasurer*.
 WILLIAM D. LYNCH, *Corresponding Secretary*.
 ROBERT N. SLOAN, *Amanuensis*.
 FRANCIS J. LAWLER, }
 WILLIAM V. McGRATH, } *Censors*.

31 Members.

THE PHILONOMOSIAN SOCIETY.

ORGANIZED JANUARY 8TH, 1839.

The members of this Society are students of the Senior Classes, and its object is similar to that of the Philodemic.

OFFICERS.

MR. W. F. CLARK, S. J., *President*.
 JAMES A. GRAY, *Vice-President*.
 RUFUS C. GARLAND, *Secretary*.
 JOHN W. HEALY, *Treasurer*.
 ROGER McSHERRY, *Amanuensis*,
 CLARENCE JONES, *First Censor*.
 MAURICE C. SPRATT, *Second Censor*.

27 Members.

THE SOCIETIES' READING-ROOM.

All the Students of the Senior Division who shall have subscribed for the purpose, may enjoy the advantages of this reading-room, in which the best periodical literature is placed at their disposal.

It is governed by a Joint Committee annually elected to this effect, by the members of the Philodemic and Philonomosian Societies.

OFFICERS.

RALPH S. LATSHAW,	<i>President.</i>
JOSEPH M. SPELLISSY,	<i>Secretary.</i>
RIGNAL D. WOODWARD,	<i>Treasurer.</i>
CLARENCE J. NEALE,	} <i>Librarians.</i>
GEORGE K. FRENCH,

 WILLIAM D. LYNCH, *Treasurer.*
 HENRY J. LATSHAW, *Librarian.*
 JAMES F. McELHONE, *Censor.*

15 Members.

THE GEORGETOWN COLLEGE JOURNAL.

ESTABLISHED 1872.

The College Journal is published by a committee of the students. Its purpose is to aid their literary improvement, to chronicle the news of the College, &c. It also serves the Society of Alumni as an organ and means of inter-communication.

EDITORIAL COMMITTEE.

FRANCIS J. LAWLER, '85.
WALTER N. KERNAN, '85.
JAMES F. McELHONE, '86.
LESLIE W. KERNAN, '86.
JOSEPH M. DOHAN, '86.

BUSINESS MANAGER.

WILLIAM V. McGRATH, JR., '86.

ASSISTANTS.

THOMAS V. BOLAN, '88.
JOHN B. McFAUL, '87.

THE DRAMATIC ASSOCIATION.

ORGANIZED 1853.—RE-ESTABLISHED OCTOBER, 1883.

The members of this Association are students from any class of the College. Meetings for rehearsal and improvement of the members are held every Friday evening, and private performances for the entertainment of the students are given at different times during the year.

OFFICERS.

MR. THOMAS E. MURPHY, S. J., *President*.
RALPH S. LATSHAW, *Vice-President*.
WILLIAM D. LYNCH, *Secretary*.

J. F. HARTIGAN, M. D.,
Lecturer on Diseases of Children.
608 14th Street, N. W.

LACHLAN TYLER, M. D.,
Demonstrator of Anatomy and Curator of the Museum.
1206 G Street, N. W.

Announcement for 1885-86.

The complete course of study in the Medical Department extends over three courses of about seven months each. The next course will begin Monday, September 21, 1885, and end on Saturday, April 24, 1886. There will be a recess from December 24, 1885, to January 3, 1886, inclusive.

The COLLEGE BUILDING which has been recently extensively repaired and altered, is located at the corner of Tenth and E streets, in Washington, D. C. This central location, within one square of three lines of street-cars, makes it easily accessible from all parts of the Capital and from the neighboring cities of Georgetown and Alexandria.

REQUISITES FOR ADMISSION.

In accordance with the recommendation of the American Medical Association, a preliminary examination will hereafter be required as a condition for admission. This is for the purpose of ascertaining whether the candidate can profitably pursue the technical study of medicine, and of preventing those not qualified from wasting time and money. The examination will be in writing. The applicant will be examined upon the ordinary branches of an English education. Technicalities will be avoided.

A preliminary examination will not be required of those who are graduates of a college, a high school or an academy.

Students having attended one term at any other medical college in good standing will be admitted to the second

course upon passing the examination required from students at the end of the first year. Those presenting certificates of examination from another medical college in good standing, will be admitted to the respective higher classes without further examination.

The preliminary examination will be held at the College Building on Saturday, September 19, 1885, at 7 P. M. Applicants will please to previously notify the Dean of their intention to appear.

METHODS OF INSTRUCTION.

The course of instruction will consist of didactic and clinical lectures, recitations, demonstrations, and of dissecting and other practical manipulation. It is expected that the students will attend all the lectures, but according to time of study and proficiency, they will be divided into three classes, called respectively the First, Second and Third.

Class recitations will be conducted by the members of the Faculty as follows, one hour every week being devoted to each branch :

First Class.—Upon Anatomy, Physiology, Chemistry, and Materia Medica.

Second Class.—Upon all the lectures.

Third Class.—Upon Anatomy, Physiology, Practice, Obstetrics, Surgery, Ophthalmology, Laryngology, Diseases of Children, and Microscopical Manipulation, Hygiene and Medical Jurisprudence.

A record of these recitations will be kept and the average made will be credited to each student in summing up after the final examinations held at the end of the session, ten

being the highest average attainable. The following table shows the hours at which the lectures are given.

SCHEME OF LECTURES AND RECITATIONS.

DAYS.	5½ to 6½ P. M.	6½ to 7½ P. M.	7½ to 8½ P. M.	8½ to 9½ P. M.
Monday.....	Chemistry.	Practice.	Anatomy.	
Tuesday.....	Mat. Medica.	Surgery.	Obstetrics.	Physiology.
Wednesday.....	Chemistry.	Practice.	Anatomy.	
Thursday.....	Mat. Medica.	Surgery.	Obstetrics.	Physiology.
Friday.....	Chemistry.	Practice.	Anatomy.	
Saturday	Mat. Medica.	Surgery.	Obstetrics.	Physiology.

During March and April the following changes will be made in the above scheme :

The hour ordinarily occupied by Practice will be devoted to lectures on Diseases of Children.

The hour ordinarily occupied by Surgery will be devoted to lectures on the Microscope and Microscopical Anatomy.

The hour ordinarily occupied by Obstetrics, &c., will be devoted to Laryngology.

The hour ordinarily occupied by Materia Medica will be devoted to lectures on Ophthalmology and Otology.

The following is a sketch of the several courses of instruction.

OBSTETRICS AND GYNÆCOLOGY.

Obstetrics will be taught in the didactic course this year by lectures, weekly recitations, demonstrations upon charts, and operations upon the manikin. Especial attention will be given to the pathology of pregnancy and labor, obstetric surgery and the puerperal diseases.

Gynæcology, which is fully treated of in the regular course, will also be taught in clinical lectures during the next session at the Providence Hospital. The Professor of Obstetrics and Gynæcology, occupying the position of gynæcologist to this Hospital, will have unusual facilities for demonstrating to the class many details in Gynæcological practice and Surgery. When practicable, operations will be performed in the amphitheatre.

PHYSIOLOGY.

The course of Physiology comprises didactic lectures upon the functions of the various organs of the body in health, and Physiological Chemistry. These lectures are illustrated by vivisections, diagrams, plates and models. The course extends throughout three full sessions.

THEORY AND PRACTICE OF MEDICINE.

In this branch the commencement of each course will be occupied in teaching the principles of general pathology, and, as each disease comes separately under consideration, attention will be devoted to its special pathology in connection with its other characteristics, in such manner as to give the student a clear conception of the methods of discrimination and management of the various diseased conditions.

An effort will be made thus to give in the course of two sessions as complete a description as possible of all the dis-

cases usually considered as belonging to the province of this chair. This teaching, together with the supplementary practical advantages offered by the various clinics to which the student will have access, will, it is hoped, afford him an opportunity of acquiring a thorough knowledge of this subject.

CHEMISTRY AND STATE MEDICINE.

In this department the course of lectures will be fully illustrated by experiments. The aim of the Professor will be to present the subject of modern Chemistry in its relations to modern medicine, in as compact a form as may be compatible with sufficient clearness. The lectures on State Medicine will include the ordinary subjects of Toxicology and Medical Jurisprudence, elementary sanitary science and public hygiene.

ANATOMY.

This course being now continued over three complete sessions, it is found that peculiar advantages are thus gained. The lectures are so arranged that the student at any year receives such elementary instruction as is necessary, and yet there is not so much repetition as to weary those who have attended previous sessions, there being in each year a considerable amount of new matter upon the higher departments of the subject. Especial attention is paid to the practical bearings of the science and its application to Surgery and Pathology. Verification of details is made whenever practicable, by exhibiting to the class the actual structures. The lectures will be fully illustrated by several hundred diagrams prepared especially for this course. By including in the course the elements of Embryology and Histology, the general outlines of a rational human Morphology are

sketched out. The student is thus led from the simple to the complex and the details of the science are more easily mastered. During the third year, students are expected to pay particular attention to Topographical and Surgical Anatomy.

PRACTICAL ANATOMY.

During each session, every student of the first and second classes will be required to dissect all regions of the human body. The *first* dissection of a region will be mainly of the nature of a preliminary study, the student being required to examine the attachments and relations of muscles and the general course and situation of the great vascular and nervous trunks. The *second* dissection of a region will be as exhaustive as it is practicable to make it, all the structures being as completely displayed as the time at the disposal of the student will allow. The Demonstrator of Anatomy will examine the students from time to time during the progress of their dissections, and if he finds that they have not properly displayed the structures or have no accurate knowledge of the parts dissected, he will require a new dissection of the same region upon another subject. He will certify upon their dissecting tickets the satisfactory completion of each dissection. It is recommended to students of the third class that they perform upon the cadaver such surgical operations as may be practicable, such as ligation of arteries, amputations, &c., &c. Material for this purpose will be furnished.

The dissecting room is large, airy and well provided with the proper appliances, including a considerable number of wall diagrams for the assistance of students. Dissecting will commence October 15th, and continue until the following April. The room will be open daily for students. The Demonstrator will give during the session special demonstra-

tions of the brain, of the thoracic and the abdominal viscera, and also of other difficult or obscure regions of the body, and have general supervision and direction over all students while in the dissecting room.

MATERIA MEDICA AND THERAPEUTICS.

Instruction in this department is given by lectures, recitations, and practical demonstrations. During the course the various articles of the *Materia Medica* will be exhibited in the crude and prepared states.

Especcial care is given to the physiological action and remedial employment of drugs.

The proper writing and formation of prescriptions will also be taught.

SURGERY.

The course consists of lectures, recitations and operations on the cadaver in the lecture room, and clinical instruction at the hospital. Military, Orthopædic and Operative Surgery are included in the two years' course.

OPHTHALMOLOGY AND OTOTOLOGY.

These important branches are taught as a part of the regular curriculum, and not as an optional Spring course. There are two lectures and one examination each week during March and April. The course begins with lectures on the anatomy of the eye and ear, illustrated by charts and specimens under the microscope, followed by an explanation of the fundamental principles of physiological optics and acoustics. The lectures on the diseases of the eye and ear are wholly clinical, illustrative cases being taken from Dr. Burnett's large service at the Central Dispensary and Emergency Hospital.

LARYNGOLOGY.

The months of March and April will be devoted to this course, during which the most important diseases belonging to this division will receive ample attention. The lectures will be illustrated by plates and specimens, the Laryngoscope, and instruments necessary for treatment exhibited and described, and the methods of their manipulation carefully explained to the student.

DISEASES OF CHILDREN.

This course will occupy the months of March and April, and will include the diseases peculiar to infancy and childhood. Preliminary lectures will be given on the pathology and the peculiarities of organization and function incident to these periods, and on the laws of hygiene and therapeutics especially applicable to them.

MICROSCOPY.

This will include a course on Histology and the use of the microscope. This instrument will be described so far as is necessary for the requirements of the physician. The course will embrace examination of the urine in health and disease, examination and diagnosis of tumors, the analysis of articles of food and medicine, &c. Instruction in making microscopical preparations will be a leading feature.

CLINICAL ADVANTAGES.

It will be seen by the following list that the hospital facilities are fully equal to those elsewhere, being in fact more than sufficient for all the needs of the student.

PROVIDENCE HOSPITAL.

Capitol Hill, Corner of Second and D Streets, S. E.

This large general hospital, situated in an easily accessible part of the city, is under the charge of the Sisters of Charity. It is supported in part by the general Government, the transient poor being sent to its wards by order of the Surgeon General of the Army, and disabled seamen of all nationalities under the Marine Hospital Service are treated in the marine ward under the immediate supervision of the Supervising Surgeon General, Professor Hamilton. It contains over three hundred beds. The medical and surgical wards are usually well filled with interesting cases. Clinics will be given in this hospital as follows :

Surgical—Professors Hamilton and Bayne.

Gynæcological—Professor Johnson.

Laryngological—Professor Morgan.

Besides these, medical and surgical clinics will be given by other gentlemen connected with the active hospital staff.

GARFIELD MEMORIAL HOSPITAL.

Boundary Street, between Tenth and Eleventh Streets, N. W.

This hospital is now in successful operation. Professors Lovejoy and Burnett are attached to the active staff.

CHILDREN'S HOSPITAL.

W Street, between Twelfth and Thirteenth Streets, N. W.

Students may here observe the diseases, injuries, and deformities incident to infancy and childhood, together with the treatment appropriate therefor. Every facility will be given to thoroughly observe and comprehend the cases admitted to its wards.

The out-patient department or dispensary is open every week-day from 2.30 to 4.30 P. M. It is divided into medical and surgical services and a service for diseases of the eye and ear. All these are free of access for medical students. A certain number of clinical assistants are appointed in this hospital, and these situations are open by competition to students of the College.

CENTRAL DISPENSARY AND EMERGENCY HOSPITAL.

416 Tenth Street, N. W.

This institution is in the immediate neighborhood of the College. During the last year 5,702 patients were treated here, and 547 surgical operations performed, several of capital importance. Three students as clinical clerks and one as resident clinical assistant are appointed from the undergraduates of the College. Unusual opportunities are afforded for acquiring practical experience in the ordinary duties of a physician. As a large proportion of the serious cases of accident that occur in the city are first brought to this hospital because of its central location, students become rapidly trained in the effective treatment of injuries demanding prompt assistance, and of that class of cases likely to be of

the most importance to the young practitioner. Students are admitted free to the services.

In this institution Professor G. L. Magruder will give clinical lectures upon Diseases of Children, Professor S. M. Burnett upon Diseases of the Eye and Ear, and Professor E. Carroll Morgan upon Diseases of the Throat and Lungs. Clinical lectures are also given by other members of the staff. Professor Johnson is upon the consulting board.

In the drug-room of the Dispensary, which is in charge of a registered pharmacist, students have an excellent opportunity of learning the practical operations of pharmacy and the careful compounding of prescriptions, of which 20,222 were filled during the past year.

PRIVATE INSTRUCTION.

Special courses of instruction, including practical exercises, which can only be taught in classes of a limited number, will be given by different members of the Faculty. Attendance upon these is not obligatory, but they are strongly recommended, especially to advanced students. The fees for the different courses can be ascertained on application to the gentlemen in charge of each.

Applied Anatomy.—(Professor Baker.) This course consists of about twenty lessons given upon the living human body for the purpose of familiarizing the student with the various landmarks and guides used by the surgeon in operations, the boundaries of the viscera as elicited by percussion, &c., the breath and heart sounds in all parts of the healthy chest, and the principal methods of physical examination of all regions of the healthy body.

Professor Burnett has also a post-graduate course of instruction in Ophthalmology, beginning the 15th of October and extending to the first of March.

Dr. Schaeffer has also a class in Practical Microscopy during the summer.

OTHER ADVANTAGES.

THE ARMY MEDICAL MUSEUM.

Tenth Street, between E and F Streets, N. W.

This famous collection is in close proximity to the College. It comprises the most complete collection of pathological specimens in the world, carefully catalogued and arranged for study. There is also a series of models and preparations by the best makers illustrating normal human anatomy, a most extensive collection of skulls and skeletons of North American Indians, a large number of specimens illustrating camp and hospital diseases as well as diseases occurring in private life. Additions to these are constantly made by the medical profession of the city, and the officers of the army stationed at the various posts. The Museum is open to students from 9 A. M. to 4 P. M. on every week day.

UNITED STATES NATIONAL MUSEUM.

Smithsonian Grounds.

This Museum contains the most complete collection in the United States, illustrating the Materia Medica of the United States Pharmacopœia and of foreign countries. The whole

of this is arranged and classified in such a manner as to be immediately available for study. First are shown all the forms in which drugs and medicines appear and are administered. Then the vegetable products are classified according to the natural affinities of the plant from which derived, and under each natural order are shown the drugs derived from each plant of the order. With each crude drug are displayed a colored plate, showing the plant, with its botanical characters, an herbarium specimen, all commercial and botanical varieties of the drug, with sections of roots, stems, and barks, to show fracture or other characters, with magnified drawings of the same, and, finally, the preparations of the drug.

Drugs of animal origin are similarly classified. Those of mineral origin are illustrated by showing the original element, the chemical compounds of that element used in medicine and pharmacy, and the preparations in which they constitute the fundamental ingredient. Poisonous salts, liable to be mistaken the one for the other, are shown together. There is also a large collection of unofficinal drugs and of drugs officinal in foreign pharmacopœias. The principal mineral waters are shown side by side with the salts derived therefrom. Careful descriptions are printed on cards and attached to groups and specimens.

A certain number of duplicate specimens can be handled with freedom by the student. It is believed that no such opportunity for the study of *Materia Medica* exists elsewhere. Connected with the collection is an excellent reference library, which can be consulted by those who wish to do so.

In the chemical section of the Museum there are also unrivalled advantages for studying the products of most use to the medical student. There is a complete collection of all known chemical elements.

Those who wish to make a medical education part of a general training in biological science will profit greatly by other collections in the Museum, which is especially rich in the departments of Ethnology and Comparative Anatomy.

THE LIBRARY OF THE SURGEON GENERAL'S OFFICE.

Tenth Street, between E and F Streets, N. W.

This unrivalled collection of medical literature is immediately adjacent to the college building. It contains over 65,000 books and an equal number of pamphlets, besides a nearly complete file of all the periodicals of the world devoted to medicine and the allied sciences. Students are allowed access to the reading room of the library from 9 A. M. to 4 P. M. For the purposes of investigation, verification of authorities, and collateral reading this library is invaluable. It contains many costly illustrated works in every department of medicine.

MUSEUM OF HYGIENE.

This Museum is under the supervision of the Surgeon General of the Navy. It contains specimens of all forms of sanitary apparatus and hospital appliances, and is open to all students from 9 A. M. to 4 P. M.

THE TONER MEDICAL LIBRARY.

This library has been given to the United States Government, and is now a part of the Congressional Library. It is especially rich in early American medical literature, and has complete files of the early medical journals. The library is open at the same hours as the Library of Congress.

EXAMINATIONS.

At the end of each session written examinations will be held as follows :

The *First Class* will be examined upon the elements of Anatomy, Physiology, Chemistry, and Materia Medica.

The *Second Class* will be examined upon Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics, and the elements of the practice of Medicine, Surgery, and Obstetrics.

The *Third Class* will be examined upon Topographical and Surgical Anatomy, Physiology, the Practice of Medicine, Therapeutics, Surgery, Obstetrics, Diseases of Women and Children, Ophthalmology and Otology, Laryngology, Microscopy, Hygiene, and Medical Jurisprudence.

A student failing to pass any examination will be again examined in September, should he so desire. Should he fail to receive sixty-five per cent. of the aggregate at either first, second, or final examination, he shall be placed back to his standing at the beginning of the respective course. The same result to follow failure to submit to examination.

At the option of the faculty the written examination may be supplemented by an oral examination.

REQUIREMENTS FOR GRADUATION.

The candidate must be of good moral character, and at least twenty-one years of age. He must have studied medicine not less than three years, during which he must have attended three full courses of instruction, delivered in some recognized medical school, the last of which shall have been in this institution. No candidate shall be eligible for final

examination for graduation unless his term of three years shall have been completed, or shall expire at a date not later than three months after the close of the final examination. He must have attended at least two courses of Practical Anatomy, the evidence of which shall be the production of demonstrator's tickets properly certified.

PRIZE.

THE FACULTY PRIZE, a microscope of the value of \$75, will be awarded to the graduate who shall have obtained the best general average in the final examination. The candidate to be successful must obtain an average of at least seventy-five per cent.; no one obtaining this, the prize will not be awarded.

FEES.

For each full course of Lectures.....	\$100 00
Matriculation (payable but once).....	5 00
Demonstrator's Ticket, each year.....	10 00

No graduation fee is required.

Payment of fees is required at the commencement of the session.

For further information apply to

J. W. H. LOVEJOY, M. D., *Dean,*
No. 900 Twelfth Street, N. W.

BOARD.

Good board can be obtained in the immediate vicinity of the College at from \$20 to \$30 per month.

JOHN J. STAFFORD.

Text-Books.

The following works are recommended by the Faculty as text-books and for collateral reading. The latest editions should always be procured.

PRACTICE OF MEDICINE.—Flint's, Bristowe's, Roberts or Loomis's Practice; Smith, or Meigs and Pepper on Diseases of Children.

SURGERY.—Agnew, Gross, Hamilton, or Ashurst; Billroth's Surgical Pathology.

OBSTETRICS.—Lusk, Playfair, Leishman or Cazeaux; Barker on Puerperal Diseases.

DISEASES OF WOMEN.—Thomas, or Barnes, Mundé's Minor Surgical Gynæcology.

ANATOMY.—Gray or Quain, Heath's or Holden's Dissector, Holden's Osteology.

HISTOLOGY.—Frey's Histology and Histo-Chemistry of Man, Klein's Atlas.

PHYSIOLOGY.—Flint, Foster, Kirk, Hermann, or Yeo.

CHEMISTRY.—Roscoe, or Fownes; Bowman's Medical Chemistry.

MATERIA MEDICA AND THERAPEUTICS.—H. C. Wood, Jr.; Bartholow; United States or National Dispensatory.

MEDICAL JURISPRUDENCE.—Taylor.

HYGIENE.—Parkes, Wilson; Richardson's Preventive Medicine.

OPHTHALMOLOGY AND OTOLOGY.—Nettleship's Manual of Diseases of the Eye; Landolt's Manual of Examination of the Eye (translated by Dr. Burnett); Roosa on the Ear.

Law Department,

Established October, 1870.

Law School of Georgetown University.

FACULTY AND STUDENTS

FOR THE

ACADEMIC YEAR, 1884-85.

REV. JAMES A. DOONAN, S. J.,

President of the University.

CHARLES W. HOFFMAN, LL. D.,

Dean of the Faculty, and President of the Moot Court.

HON. RICHARD T. MERRICK, LL. D.,

Lecturer on Constitutional Law and the Law of Nations.

HON. WILLIAM A. RICHARDSON, LL. D.,

Lecturer on Statutory and Administrative Law, and Legal Maxims.

MARTIN F. MORRIS, LL. D.,

Lecturer on Equity Jurisprudence, Pleading and Practice, and the Law of Partnership, Corporations and Admiralty.

JAMES G. PAYNE, Esq.,

Lecturer on the Law of Real Estate, the Law of Evidence, and Criminal Law.

JOSEPH J. DARLINGTON, Esq.,

Lecturer on the Law of Personal Property, Contracts and Negotiable Paper, Testamentary Law and the Domestic Relations.

JOHN W. ROSS, Esq.,

Lecturer on Common Law Pleading and Practice, and the Law of Torts, and Judge of the Moot Court.

SAMUEL M. YEATMAN, Esq.,

Secretary and Treasurer.

AWARD OF PRIZES.

1st. A cash prize of \$40 to the member of the Junior Class maintaining the best average in recitations and examinations during the year.

Awarded to GEORGE F. NOYES, *of Maine.*

2nd. A special cash prize of \$40 to the member of the Junior Class maintaining the second best average in recitations and examinations during the year.

Awarded to M. V. TIERNEY, *of District of Columbia.*

3rd. A cash prize of \$100 to the member of the Senior Class maintaining the best average in recitations and examinations during the year.

Awarded to MICHAEL J. COLBERT, *of District of Columbia.*

4th. A cash prize of \$50 to the member of the Senior Class maintaining the second best average in recitations and examinations during the year.

Awarded to LEONARD C. WOOD, *of Indiana.*

5th. A cash prize of \$50 to the member of the Post-Graduate Class maintaining the best average in recitations and examinations during the year.

Awarded to HENRY W. SOHON, *of District of Columbia.*

6th. A cash prize of \$40 to the author of the best essay upon any legal subject, among the members of the Senior Class.

These essays were submitted to a committee consisting of three (3) members of the District Bar, each of whom selected a different essay as being the best,—the three being those submitted by A. W. Fergusson, Jere Johnson, and F. M. Kiggins. It became necessary, therefore, to add another member to the committee, and the prize is finally

Awarded to ARTHUR W. FERGUSSON, *of California.*

7th. A cash prize of \$25 to the author of the best essay upon any legal subject, among the members of the Post-Graduate Class.

Awarded to HENRY W. SOHON, *of District of Columbia.*

PROSPECTUS FOR 1885-86.

The next term of this institution opens Wednesday evening, October 7th, 1885, at 6.30 o'clock, in the Georgetown University Law Building, corner of Sixth and F Streets, N. W., in the city of Washington. All persons interested are invited to attend the introductory lecture, which will then be delivered. The collegiate year closes on the first of June.

ADVANTAGES.

Of the great advantages offered by a Law School over the unassisted reading of a student in a law office, there can be no question. Here, however, the experiment has been successfully made of uniting the advantages of the two. The lectures are held in the evening, and, so far as practicable, students who put themselves into timely communication with the Secretary are connected with the offices of the ablest lawyers of the city, where they are allowed to familiarize themselves with the conduct of business, and the practical duties of the profession.

The holding of the lectures and other exercises in the evening, also enables clerks in the various departments of the Government, and other persons who are engaged during the day, to avail themselves of the privileges of the school.

The site of the institution, at the Capital of the Nation, presents advantages for the study of American jurisprudence which are unequalled elsewhere, and must always remain so.

The Law Library at the United States Capitol, in charge of the Dean of this Faculty as official librarian, contains over

50,000 volumes, embracing all the noted treatises, reports and periodicals, ancient and modern, American, English, and of the nations of Continental Europe. By the operation of the copyright law, and the outlay of an annual appropriation, it is constantly enriched with new acquisitions, and is believed to be kept in a state of completeness unrivalled among the law libraries of the world. This magnificent collection is freely open to students for seven hours daily.

Congress, the Court of Claims and the Supreme Court of the United States are in session during several months of each school year, and, with the executive departments, especially the Patent, Pension and General Land Offices, furnish advantages for professional study nowhere else enjoyed.

The Supreme Court of the District of Columbia has the common law, equity, criminal and probate jurisdiction of a State Court in the States, besides that of the Circuit and District Courts of the United States. Its sessions afford the student opportunities for hearing the forensic arguments and forming the acquaintance of the leaders of the American Bar from all parts of the Union, besides thoroughly familiarizing himself with the practice of these various courts.

There is, in the District of Columbia, no "Code" of either substantive law or procedure, and no very extensive statutory provisions. This obviates the tendency observable at so many law schools toward consuming the time and loading the memory of the student with merely local enactments, which will be of worse than no service to him when he returns to his home, or removes to another locality after graduation. The jurisprudence of the District remains almost intact that of Maryland on the day of original cession, February 27, 1801, and is, therefore, as close an approximation to the simplicity of the Common Law, so constantly referred to in the text-books, as can be found in the Union.

COST OF BOARDING, ETC.

There is no boarding department connected with the Law School. Some students board at the University buildings in Georgetown, distant about two and a half miles, but with direct street-car communication. These are generally young men who desire to avail themselves of the exceptionally fine educational facilities of the University for improving their literary, classical or scientific education, at the same time that they are pursuing their legal studies. All needed accommodations are here furnished at a cost of \$30 per month.

The majority, however, of the law students board in Washington City, where the Law School is located, and where the cost of comfortable lodgings, board, fuel, and gas, varies from \$20 to \$30 per month, according to the location and appointments selected. Satisfactory accommodations can easily be had at \$25 per month; and there are every year students who get along comfortably at a cost of \$20 per month, and even less. Tuition is \$80 per annum, with no incidental charges except a diploma fee of \$5, upon graduation. Cost of textbooks is about \$30 per annum. The Law School session is from the first Wednesday in October to the first Wednesday in June—about eight months. The necessary expense for board, lodging, tuition, books, etc., per annum, is, therefore, about \$300, exclusive, of course, of clothing, and general incidental expenses.

ADMISSION.

Students desiring to become members of the School enter their names upon the Secretary's register, at or before the opening of the term in October.

Candidates for advanced standing—*i. e.*, those desiring to complete the course in one year, must, at the time of entry,

present certificates of at least one year's previous study at some approved Law School, or in the office of a reputable practitioner.

Those desiring to enter the Post-Graduate Course should exhibit their diplomas, or certificates of equivalent study.

COURSE OF STUDY.

The regular curriculum covers a period of two years, divided into a Junior and Senior Course.

The Post-Graduate Course covers an additional period of one year.

Students in the Senior Course are required to attend the Lectures, and to be examined upon Part 2 of the studies, of the Junior Course, as indicated below; and students in the Post-Graduate Course are, in like manner, required to attend the Lectures, and be examined upon the studies of the Senior Course.

Regular and punctual attendance on the part of the student is required, as also preparation for thorough recitations in class, daily.

Candidates for a degree must have been in regular attendance for at least one year, and must pass a satisfactory examination on the entire two years' course of study.

The following is the course of study pursued in the Law School:

Junior Course:—*Part 1.* Personal Property, Torts, Domestic Relations, and Criminal Law.

Part 2. Real Estate, Contracts, Bills and Notes, and Testamentary Law.

Senior Course:—*Part 1.* Subjects of Part 2 of the Junior Course.

Part 2. Pleading, Practice, Evidence and Equity. Moot Court.

Post-Graduate Course:—*Part 1.* Subjects of Part 2 of the Senior Course.

Part 2. Partnership, Corporations, Office Practice, Conveyancing, Equity Pleading and Practice, Admiralty and Miscellaneous.

Part 3. Constitutional Law, Statutory Law and International Law.

TEXT BOOKS.

Junior Course:—Blackstone's Commentaries; Schouler on Personal Property, Vol. I; Bishop on Contracts; Byles on Bills; Cooley on Torts; Williams on Real Property.

Senior Course:—Stephen on Pleading; Cox on Practice; Starkie on Evidence; Adam's Equity.

Post-Graduate Course:—Tyler's Mitford's Equity Pleading and Practice; Sedgwick's Statutory and Constitutional Law; Paschal's Annotated Constitution; Story on Partnership; Boone on Corporations.

LECTURES.

Junior Course:—Monday, Tuesday, Wednesday, Friday and Saturday evenings, at 6.15 o'clock.

Senior Course:—Tuesday, Thursday and Saturday evenings, at 6.15 o'clock.

Post-Graduate Course:—Monday, Wednesday and Friday evenings, at 6.15 o'clock.

As previously stated, the Seniors will be required to attend the lectures of Part 2 of the Junior Course, and the Post-Graduates those of the Senior Course.

EXAMINATIONS.

No examination is required on entering the School, or at the beginning of the Course.

Three written examinations are held during each collegiate year, *about New Year's, in March, and at the end of the session.* Students passing satisfactorily upon the subjects of these examinations will not be required to stand a second examination upon them during the year ; while those who fall below the standard required, will have an opportunity of making up the deficiency before its close. This system has been found to promote more careful study, and, at the same time, to admit of more thorough examination, with less tax upon the student's endurance, than a general examination at the close of the Course.

POST-GRADUATE COURSE.

As will be seen by reference to the curriculum, the course of study for the Junior and Senior Classes embraces quite as much as can be acquired with thoroughness in two years, and a diploma, conferring the degree of Bachelor of Laws, is granted to students successfully completing this course. In the District of Columbia, however, and in many of the States, three years' study is an indispensable pre-requisite to admission to the Bar ; and it was to meet this exaction or demand for a higher standard of legal acquirements that the Post-Graduate Course was added. It has been a source of no slight gratification to the Faculty, and a most favorable omen for the Bar of the future, to observe that many gentlemen who propose to practice in jurisdictions where the requirements are less rigorous, and some, indeed, who had been previously admitted to the Bar, have, nevertheless, diligently pursued the Post-Graduate Course of Study, taking the degree of Master of Laws.

While the students in the Post-Graduate Course are expected to take the leading part in the exercises of the Moot Court, it

will continue to be the endeavor of the Faculty to make this Court, as in the past, a training-school for all the students, as their progress warrants, in pleading, practice and forensic debate.

The degree of Master of Laws is conferred upon those who successfully complete the Post-Graduate Course of Study, and the holder thereof is entitled to participate in the studies and exercises of the school thereafter, without additional charge.

A COURSE IN LATIN.

Many law students find themselves embarrassed on the very threshold of their studies by want of acquaintance with the Latin language, which supplies so considerable a part of the phraseology of the Law. In view of the difficulties thus experienced every year by many meritorious students, a professorship of Latin has been established by the Classical Department of the University, for the express purpose of giving instruction in that language to such students of the Law School as may desire to avail themselves of the opportunity thus afforded. This instruction is intended to be auxiliary to the Law Course, and is given without other charge than is required for the course of law lectures. The Class of Latin is held at the Law School building, at such hour as is found most convenient for those who enter their names for it.

Students who, from any cause, have not acquired a classical education, will find this added feature of the course of the greatest practical advantage and value in the study and practice of law.

PRIZES.

The following prizes are offered for the competition of the students in the several classes :—

1st. A cash prize of \$40 to the member of the Junior Class maintaining the best average in recitations and examinations during the year.

2d. A cash prize of \$40 to the author of the best essay upon any legal subject, among the members of the Senior Class.

3d. A cash prize of \$100 to the member of the Senior Class maintaining the best average in recitations and examinations during the year.

4th. A cash prize of \$50 to the member of the Senior Class maintaining the second best average in recitations and examinations during the year.

5th. A cash prize of \$50 to the member of the Post-Graduate Class maintaining the best average in recitations and examinations during the year.

6. A cash prize of \$25 to the author of the best essay upon any legal subject, among the members of the Post-Graduate Class.

LECTURE STUDENTS.

Those who wish to avail themselves of the lectures delivered at this School without being subject to recitations or being candidates for a degree, may do so upon payment of one-half of the regular charge for tuition.

Less than two years' attendance as a lecture-student will not entitle one to admission to the Senior Class of the year following.

SYSTEM OF INSTRUCTION.

The system of instruction adopted by the Georgetown Law School is the following :—A lesson, averaging from thirty to forty pages of the text-book, is assigned in advance, which the student is expected to master as thoroughly as he can

before the recitation hour. The lecturer then goes over the ground covered by the text, explaining what is obscure or difficult, pointing out the application in practice of the principles treated of, and illustrating, by examples, their application in actual cases. Then follows the "Quiz," in which the lesson is gone entirely over again in the shape of questions, requiring the students to reproduce in their own language all that it contains, with practical applications of the doctrines learned to supposed cases put by the lecturer. The student thus has three opportunities of becoming familiar, theoretically and practically, with each topic treated of in the course: *once*, by careful study of the text, *a second time* by the discussion of it in the lecture, *and once again*, by himself reproducing and practically applying the principles thus taught, in his answers to the "Quiz." This system has been found after careful and painstaking tests, most satisfactory to both teacher and student, and productive of the highest standard of proficiency in study. It is believed to be absolutely the best.

TERMS.

The charge for attendance is *Eighty Dollars* per annum, or *One Hundred and Fifty Dollars* for the full course of two years. The collegiate year is regarded as divided into two equal terms, beginning on the first Wednesday in October and February, respectively, and one-half the annual charge becomes due and payable on the following day, Thursday. For the accommodation of students, the Secretary will, when requested, receive monthly payments of \$10 each, *strictly in advance*.

Persons enrolling their names as students will be considered as having entered the School for not less than one term, unless an express agreement to the contrary is made. Payment will

not be received for less than one full month, nor can any deduction be made for absence.

For the *Post-Graduate Course*, the charge is *Twenty-five Dollars*, payable in two instalments, in advance.

For attendance on Lectures, as hereinbefore stated, the charge is *Forty Dollars* per annum.

The fee for graduation, which is additional to the yearly charge for attendance, is *Five Dollars*, payable upon notice to the student that he has passed the examinations and is entitled to a Diploma.

For further information apply to

S. M. YEATMAN,

Secretary and Treasurer.

Address Georgetown University Law Building, corner Sixth and F Streets, N. W., Washington, D. C.
